Urge Fall Plans For New Houses

While the new building feature of the National Housing Act— that portion embracing the insurance of mortgages and establishment of national mortgage associations— probably will not become operative before the early part of next year, the Federal Housing Administration is actively engaged in laying the groundwork for this broad program. Administration officials are urging those contemplating new work to consult with architects and builders this fall.

A family building a house must have in cash at least 20 per cent of the total value of the house and land, or the equivalent in land, which is owned free and clear. Mortgage loans made on new and existing homes, to be approved for insurance, are limited to a maximum of $16,000 representing not more than 80 per cent of the appraised value. Mary Pickford Here FOR Navy Carnival

VALLEJO, Sept. 18.—Mary Pickford ,brightest name on the screen after more than a score of years in motion pictures will appear in person before a North Bay audience for the first time when she visits here October 5 as the stelar attraction of the anual Mare Island Navy Relief Society Carnival.

Miss Pickford, christened "Little Sister of the Navy" in 1918, volunteered to lend the drawing power of her name to the Navy's charity fund raising frolic when a personal emissary of Rear Admiral Yancey S. Williams, commandant of Mare Island, visited her recently at Pickfair. The envoy was Lieutenant K. J. Christoph, dashing young naval officer.

Arriving in San Francisco on the "Lark" the morning of October 5, Miss Pckford will be greeted by a delegation of naval officers and brought to Mare Island where she will be the house guest of Admiral and Mrs. Williams. She will appear in person at the Relief Carnival the night of October 5, returning to Hollywood the following day.

It was aboard the U. S. S. Texas at Long Beach one day in 1918 that Secretary of the Navy Josephus Daniels gave Miss Pickford the title "Little Sweetheart of the Navy" in recognition of her wartime civilian work. She had marched the length of San Francisco's Market street in a blistering hot sun at the head of a military parade, and had set a record for selling more Liberty Loan bonds than any other person in pictures.

The three day Carnival, October 4, 5 and 6, will be held in the spacious cafeteria building at the Navy Yard, adjacent to the Rodman Club. The large building wil accomodate more than 6,000 persons.

How To Get Repair Loans

By James Moffett
Administrator, Federal Housing Administration, Washington, D. C.

Here, in a nutshell, is the plan for borrowing modernization funds under the Federal Housing Program.

1. A modernization loan is solely for the purpose of repairing, altering or improving your home, shop, farmhouse, store or other building. Diversion of the money to any other purpose is strictly prohibited.

2. It cannot be for less than $100 or for more than$2,000. the borrower must have a bona fide source of income equal to at least five times the annual payments.

3. It can be made for terms up to three years, but may be paid in full earlier than the maturity date if the borrower desires.

4. Maximum charges, including interest and fees, can not exceed an amount equivalent to $5 discount per year per $100 original face amount of the note.

5. To get a modernization loan, the property owner must present to the bank or other lending institution a precise estimate of the cost of the improvements and should be able to prove that they are necessary or advisable.

6. In addition, the property owner must file a Property Owner's Credit Statement, showing his financial condition, sources and amount of income and other information necessary to determine his ability to repay the loan.

If the bank considers the improvements advisable, and the property owner able to meet the payments when due, it can advance the money on the personal note of the property owner. The note must be signed by both husband and wife, if the property owner is married. No mortgage or collateral security is necessary, unless State laws or the financial institution's officials demand it.

NEW GIRLS WELCOMED AT SEQUOIA HIGH SCHOOL

Representing the qualities were: Bernice Gardner, faith; Mary Elizabeth Wheaton, hope; Mildred Mills, beauty; Janis Hildebrandt, love; Shirley Bowles, tolerance; Ruth Rhoda, knowledge; Virginia Wilmoth, loyalty; Lorraine Jacobsen, health; Gail Morrison, truth; and Josephine Hogevoll, service.

Scouts Ready For County Camporee At Stanford Sat.

A tent city will spring up next Saturday morning on the greensward of Stanford University's sunken baseball diamond when several hundred Boy Scouts of Santa Clara county take possission of their first annual two-day "Camporee."

The big event of the Camporee , and in the lives of six boys, will take place at 8 o'clock Saturday evening, when former president Herbert Hoover presents Eagle badges, Scouting's highest award to the six qualified for the honor.

The program that evening, and another from 1 to 3 o'clock on Sunday afternoon, will be designed to acquaint the public with the wide variety of activities in the Boy Scout program. Advance ticket sales, in which Boy Scouts all over the county are now engaged, indicate the two-day event will attract the largest crowd in the history of scouting in the Santa Clara county council.

Scouts are proving excellent ticket salesmen, for the reason that all proceeds will be applied to the Boy Scout camp in the Santa Cruz mountains near Swanton.

The Camporee is designed to test the proficiency of the boys, under their own patrol leadership, in camp and scoutcraft. Everything they do, from the time they trudge into the stadium Saturday morning, all camping equipment on their backs, until they march out again the following afternoon, will be scrutinized continuously by keen eyed judges. Patrols will be rated, in order of their merit, as A, B and C patrols. "A" patrols qualify to represent the council at the regional camporal at Stockton in October.

After setting up camp Saturday morning, the boys will attend the San Jose State-Stanford football game in the afternoon, then return to camp to prepare their dinner, and get ready for the evening program. Sunday morning they'll prepare breakfast, attend church service, swim in the university pool. After lunch, there will be a "project period" from 1 o'clock to 3 in which patrols engage in a series of competitive events, the nature of which is not divulged to the boys in advance. "Colors" will sound at 3:30 when the Camporee officially closes.

Almon E. Roth, controller of Stanford University, and president of the Santa Clara county council, Boy Scouts of America, is general chairman of the committee of several score adults sponsoring the program.

California
News of the Week

(By WNU Service)

California is not a crime state. Figures from Washington show that only 39 men and 20 women per 100,000 population were confined in municipal penal institutions in California. For the nation as a whole, 567 men and 40 women are thus confined, according to data gathered during the first half of 1934. These statistics do not include federal penitentiaries.

With the opening of the fall term at the University of Southern California, two unusual features will be continued this year. The first is the university junior college, wherein students with junior college standing attend regular college classes for their work. The other feature is the literary laboratory, a group of courses to aid young writers.

The Pomona fair, the present festival highlight of the state, has set as a goal, 500,000 attendance. These figures are conservatively based on last years's crowds. The present fair boasts of ten miles of exhibits. To satisfy demon speed, horce-racing, midget-auto racing, English motorcycle racing, and chariot racing are among the festival's features.

In 1823 the whipping of a Santa Inez Indian boy started a revolution. After a skirmish, rebels took refuge in La Purisima mission. Until Monterey police arrived a month later, the mission withstood all attacks succesfully. The patient attack of the years, however, on this historic structure has been more successful. Now a CCC camp is being established for the purpose of reconditioning the mission.

General health conditions in the state are good, according to Dr. J. D. Dunshee, of the state department of public health. Dunshee said that "with the exceptions of the epidemic of poliomyelitis which prevailed during July and scarlet fever, which is running slightly higher than usual at this season of the year, general health conditions were good."

Headed by City Councilman Buyer, a group of Los Angeles men recently called on Mayor Angelo Rossi in San Francisco and pledged cooperation of Los Angeles in putting over the proposed exposition in San Francisco to celebrate completion of the bay bridges. Los Angeles plans an exposition at the same time.

San Diego has completed plans for the erection of a city hall to cost $1,000,000 as the first unit of the proposed city-county civic center group. The structure will be three stories. The initial unit will be financed through a bond issue acceptable to the Public Works Administration, which has approved the project as deserving of study and has financed the drafting of plans and specifications, and a 30 per cent grant.

LOCAL CHURCH HOLDS UNIQUE SUPPER

The Presbyterian church of Menlo Park gave a "one-cent" supper Thursday night in the social hall of the church.

Those in charge of the unique affair were Mrs. F. W. Meyer and Mrs. A. W. Rogers. A ten cent cover charge was made and each serving cost one cent.

The members of this church have many worth-while plans for doing some splendid work in this community. This supper is the first of a series of pleasant and profitable entertainment which is to be given in order to raise money for the furtherance of these plans.

The food for the supper was donated and the entire proceeds went to swell the funds of the church.

Those who attended the supper had a most enjoyable time and urge that another one be planned for the near future.

Douglass - Mc Nabb Wedding Plans Told

October 24 is the date selected by Miss Ena Douglass and William McNabb for their marriage. The ceremony will take place at Victoria Manor, the Menlo Park home of the brideelect's parents, Mr. and Mrs. Leon Douglass. Dr. D. Charles Gardner, Stanford University chaplain, will officiate. Only relatives and close friends are being invited.

General Hints For Home Use

Don't do home dry cleaning either by hand or with the use of a home dry cleaning machine. Confine your economic efforts solely to the tak ing out of isolated grease spots. Home dry cleaning machines are cheap. To be sold cheap they must be made cheaply, and that makes them unsafe for use.

The renovating of wearing apparel, in all common sense, should not be done in the home, but in the establishments experienced and equipped to handle dry cleaning, and which have been licensed by the state to conduct such a business. With establishments of this standing should be placed such dry cleaning, as the weekly roll of deaths and mutilations by exploding solvents has been shown to be a deceptive economy when attempted by the housewife, not only for the better and more permanent results obtained, but above all, to insure in greater measure the safety of those in your home.

Don't clean floors with gasoline. Use soap and water, or one of the powdered chemical compounds on the market that can be dissolved for use in water.

Don't clean stoves with gas oline. Use one of the non-inflammable praparations of lampblack and carbon tetrachloride.

Don't use gasoline or kerosene to start a fire in your stove. Many horrible deaths and burns that permanently disfigure are annually charged to this cause.

Bear in mind that gasoline and cleaning fluids handled in the home are as dangerous as dynamite.

CORBETT GRATEFUL FOR LOCAL VOTE SUPPORT

Dear Editor:

It is with feeling of gratitude and appreciation that I thank my friends and supporters for the splendid vote in my recent campaign for re-election as a member of the State Board of Equalization from the First District.

As the district is composed of the important counties of San Francisco, San Mateo, Santa Clara, Santa Cruz, San Benito, Monterey, and San Luis Obispo, in all of which a majority vote was accorded me, it is with sincere thankfulness that I promise the voters of these counties to use my utmost endeavors to conduct the office in such a manner as to warrant the confidence reposed in me.

May I at this time call attention to the fact that although winnig both Republican and Democratic nominations, it is still necessary for me to have my name appear on the ballot for the general election in November.

Hoping that I may have the same cooperation from my many friends in November as I had at the primaries in August, I remain

Very truly yours,
John C. Corbett.

OLD SEQUOIA TREE FALLS AFTER WEAKENED BY FIRE

For 1800 years the towering sequoia known as the Stable Tree has stood steadfast against snow, rain and wind. But today it lies 269 feet in the dust of Mariposa Grove.

Weakened by a fire scar, which destroyed its interior 200 years ago, the tree fell recently, causing ground shock that could be felt a quarter of a mile away.

No man saw the great tree fall. The day was windless.

Mr. and Mrs. R. A. Fanto have returned to their Atherton estate after a delightful summer spent in Santa Monica.

MAN 92 SEE THE FIRST CALIFORNIA STATE FAIR

J. B. Morris, 92, of Agua Caliente, who witnessed the first California state fair 80 years ago in San Francisco, viewed the last state fair in Sacramento recently. He is believed to be one of the few living men who saw the first exhibition.

He was 13 when he saw the first fair. He recalls vividly that the first butter ever produced in California was churned at that time. Until then all butter came from the east.

"Chicken eggs were a great novelty at the fair, too", Morris remembered. "I remember that until the fair there were hardly any eggs of this kind ever seen in San Francisco. Nearly everybody ate sea gull eggs, which were brought in by the millions on ocean ships."

Sequoia Plays Teams At Home, Friday

BASKETBALL

The 120's basketball team, having defeated Mission and lost to Polytechnic, and the 110's having lost to both, the Sequoia lightweight basketball teams play hosts to the strong Lowell outfit from San Francisco Friday, September 21. It will be their third game of the season.

The twenties have Tony Ledesma, Joe Partemi, and Tom Graham, veterans from last year's championship 110 team, holding them together and should prove a tough obstacle for Lowell to hurdle.

The dimes, on the other hand, appear to be heading for their third defeat in as many games. They have but one veteran, Crockett, and will have to improve greatly if they hope to top any city team.

FOOTBALL

Sequoia goes in search of its third consecutive football victory of the season, when they meet Tamalpias on the Cherokee turf, Friday, September 21.

Having already defeated Polytechnic and Watsonville high schools on successive Saturdays, and looking ahead a week to the game with Stockton, the Tamalpias game may be regarded as a breather; but as champions of their league, and having the entire league to represent, Tamalpias will undoubtedly put up a good fight.

The probable line-up for Sequoia is: Keller and Garbarino, ends; Zehner and Kreiss, tackles; Tuxford and Bloxham, guards; Rhoda, center; Elliott, quarterback; Hanners and Junker, halves; and Lewis at fullback.

Stanford Captain

Bobby Grayson, Stanford fullback and captain of the team, reported on the campus after a summer spent as an oil man. He weighed in at 189 pounds. Grayson pessimistically declared that Oregon State already has Stanford licked in the game the two teams will play at Portland October 6.

Here's Preview of One Golden Bear Grid Squad

A light, fast "third" football team, clad in track shorts in place of heavy, padded regulation moleskins—that's "Navy Bill" Ingram's ace in the hole for the '34 gridiron season at the University of California. Ingram will drill his extra squad separately, featuring a spectacular attack in a wide open game. The squad will consist of a light speedy line, two six foot four wingmen and triple threat halfbacks. Here's the nucleus of the squad getting accustomed to playing in shorts at Edwards Stadium, Berkeley.

KLAMATH RIVER FISHING REPORTS

The Klamath River is rapidly clearing and prospects for salmon and steelhead fishing are bright. The fish are taking flies and spinners on the rifles, while trolling is exceptionaly successful at the mouth. The green algae which was spoiling the fishing has washed away.

PENINSULA DOG SHOW

Peninsula dog fans will play a leading part in the preparations announced yesterday for the staging of the Bay Cities Combined Specialty Dog Show October 6-7 at Dreamland Auditorium in San Francisco.

According to C. H. Stratton of Redwood City, president of the Northern California Chow Chow Clubs, 12 nationally known champion prize winning chow chows, all owned by peninsula and other bay region residents, will be on exhibition at the show.

Other breeds of the specialized groups which will be exhibited at the show are Scotch terriers, Irish setters, English bulls, German shepherds, Boston terriers, pekingese, pomeranians, springers and cockers.

RATTLERS PLENTIFUL NOW WARNS CLUB

Deer hunters are warned of the presence of greater numbers of rattlesnakes in the forests this year, on account of the mild winter and continued dry weather, states the office of the National Automobile Club.

According to the report of Dr. Harold E. Morrison, San Mateo county health officer, there were no new cases of infantile paralysis for the week ending September 15.

No new cases of any disease are recorded from Menlo Park, Hillsborough, San Carlos, or South San Francisco.

DEER HUNTING IN KAIBAB FOREST

Deer Hunting season in the Kaibab National Forest opens October 16 and closes November 15, this year, according to reports received by the Touring Department of the National Automobile club. In order to remove the annual increase of deer in the Forest, the Arizona Game and Fish Commision and the U. S. Forest Service have agreed to the opening of formerly restricted areas this season. The east side of the Kaibab Plateau will remain closed to hunters.

Each hunter must have a State of Arizona hunting license and a government agreement before doing any hunting in this district. The fee for a non-resident license is $25.00 and the government agreement is $1.50. Hunters must first report to a camp, where they will register and receive instructions. To prevent overcrowding of camps, only a limited number of persons will be allowed in each There are three camps on the West sid—Moquitch, Pin Flat and Big Saddle. Meals and tent cabins are available at all three, but the hunter should bring his own bedding.

It will not be necessary to make reservations this year. Latest reports indicate that all roads leading to the camps will be free of snow.

Only guns propelling a bullet weighing 87 grains or heavier may be used. Shot guns, revolvers and bows and arrows will not be permitted. Each person wil be allowed one deer, either buck of doe.

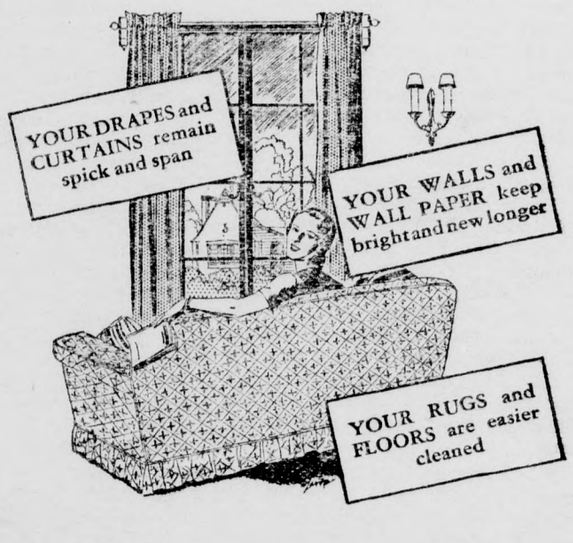
NATURAL GAS
CLEAN HEAT



YOUR DRAPES and CURTAINS remain spick and span
YOUR WALLS and WALL PAPER keep bright and new longer
YOUR RUGS and FLOORS are easier cleaned

WHEN Natural Gas heat comes in, dirt and dust and grime that is ever present with old fashioned fire-tending or smoky fuel goes out—forever. For Natural Gas is delivered clean, burns clean and leaves no residue to be gathered up and hauled away.

What a change too, this modern fuel brings throughout the house! Curtains, laundered clean and crisp, stay clean. Wall paper, ceilings, floors and rugs keep looking like new—years longer. There is no grimy dust settling into furniture and upon window ledges. Think of what all this means when both labor and worry of housework are lightened—made so much easier.

Save hours of needless work keeping fires up this winter. Change your basement or storeroom into a playroom or clothes-drying room this winter. Save money too in redecorating costs, renovating costs, rug cleaning bills, by changing to Natural Gas heating.

Why not make the change to modern, clean heat in your home this month—right now!
